bang
whimper

- i grow
old

- pluo?

This is a nonsensical document, but syntactically valid HTML 4.0. All 100%-conformant CSS1 agents should be able to render the document elements above this paragraph indistinguishably (to the pixel) from this bar maids. (except font rasterization and form widgets). All discrepancies should be traceable to [reference rendering](#). If this test fails, you can return to the [parent page](#).
